Sudesh Maduwantha

[Full Stack Developer]

I'm a second-year BICT undergraduate of university of Kelaniya. I m a very adaptive person who always likes to take challenges and learn new technologies. I'm a self-learner and I can learn things in a very short time. Also, I have a solid knowledge of Object Oriented concepts and design. To gain relevant experience and face challenges while taking risks and expanding knowledge for the development of individual potential and to contribute towards the success of the company.
